

## Investment Strategy

The LOYS Aktien Europa fund's investment strategy takes advantage of undervalued, high-quality companies in the European stock markets. The investment universe includes stocks in all sectors irrespective of benchmark constraints. Based on rigorous fundamental analysis the fund invests in significantly undervalued companies which are domiciled in Europe with a sustainable, competitive business model and shareholder-friendly management. The individual equities in the portfolio are weighted according to their relative attractiveness measured by discount to intrinsic value and company quality. The portfolio is constructed carefully taking into account liquidity requirements and diversification across market capitalizations, geographies and sectors. The fund's goal is a broad diversification with single positions actively not weighted more than 2.5% in the fund. The fund aims to be fully invested at all times.

## Fund Management Commentary

LOYS Aktien Europa fell by around 3.5 % in the summer month of June. Contrary to an old stock market heuristic, according to which political events tend not to lead to major trouble on the financial markets, European and above all French government bonds and equities came under strong downward pressure following the European elections. Nevertheless, it should be noted that the European Central Bank embarked on a cycle of interest rate cuts in June. Optimistic news from the US software and semiconductor sector (Oracle, Broadcom, Adobe, etc.) provided a tailwind for US technology shares. The euro weakened against the US dollar, as did the Japanese yen. The renaissance in small-capitalization stocks observed in May was interrupted in June. Nevertheless, the portfolio management of LOYS Aktien Europa expects that the trend seen in May will resume.

As of: 25.07.2024

### Important Information:

<sup>1</sup>The gross value development (BVI method) takes into account all costs incurred at fund level (for example, the management fee) with the exception of any front-end load that may be incurred (this is otherwise marked separately). Additional costs may be incurred individually at customer level (e.g. custody account fees, commissions and other fees). Model calculation (net): One investor would like to purchase units for EUR 1000. With a maximum initial sales charge of 5%, he or she must spend a one-off of EUR 50. Additionally, custody account costs may be incurred which affect the performance of the portfolio reduce the deposit costs. The custody account costs result from the price and service list of your Bank. Predictive statements are based on assumptions. Since all assumptions, predictions and statements simply reflect the current view of future events, they are quite naturally subject to inherent risks and uncertainties. Thus, they should not be regarded as guarantees or promises regarding future performance. Investors are alerted that future performance can vary greatly from past results. Especially performance results referring to a period of less than twelve months (Year-to-date-performance, start of investment fund within the last twelve months) does not reliably indicate future results due to the short period of comparison. Hence, the future performance of the investment cannot be guaranteed. Sole basis for the purchase of units are the offering documents of this product (the latest prospectus, the Key Investor Information Document, the latest statement of accounts and - if older than 8 months - the latest half-year review) that can be requested free of charge from LOYS AG, Barckhausstr. 10, 60325 Frankfurt am Main, from HAUCK & AUFHÄUSER INVESTMENT GESELLSCHAFT S.A., R.C.S.LUXEMBURG NR.
