

## Investment Strategy

The LOYS Premium Dividende fund's investment strategy is to achieve sustained growth in the value of the assets contributed by unitholders. To attain this investment objective, the fund invests in listed companies with sustainable and continuous dividend payments. The aim is to enable investors to achieve capital appreciation in as many capital market situations as possible. The fund invests exclusively in stocks emitted by issuers domiciled in Europe and aims to be fully invested at all times. The fund's investment policy also provides for the acquisition of shares in companies with a low market capitalization.

## Fund Management Commentary

In March, the LOYS Premium Dividende saw its net asset value decline by 8%. The financial markets were dominated by the conflict between Israel and the U.S. and Iran. The sharp rise in oil prices, in particular, was the focus of attention. Overall, all asset classes posted losses. The setbacks in the bond sector were particularly striking, with the yield on 10-year German government bonds rising well above the 3% mark. Gold and silver performed surprisingly weakly after the bull market in this sector came to an end. The stock markets experienced a significant correction, and once again, software stocks were the hardest hit. Economists revised their growth forecasts for the global economy downward. The fund management team of the LOYS Premium Dividende increased its position in IG Group after the British financial services provider reported strong results.

**Important Information:**

The gross value development (BVI method) takes into account all costs incurred at fund level (for example, the management fee) with the exception of any front-end load that may be incurred (this is otherwise marked separately). Additional costs may be incurred individually at customer level (e.g. custody account fees, commissions and other fees). Model calculation (net): One investor would like to purchase units for EUR 1000. With a maximum initial sales charge of 5%, he or she must spend a one-off of EUR 50. Additionally, custody account costs may be incurred which affect the performance of the portfolio reduce the deposit costs. The custody account costs result from the price and service list of your Bank. Predictive statements are based on assumptions. Since all assumptions, predictions and statements simply reflect the current view of future events, they are quite naturally subject to inherent risks and uncertainties. Thus, they should not be regarded as guarantees or promises regarding future performance. Investors are alerted that future performance can vary greatly from past results. Especially performance results referring to a period of less than twelve months (Year-to-date-performance, start of investment fund within the last twelve months) does not reliably indicate future results due to the short period of comparison. Hence, the future performance of the investment cannot be guaranteed. Sole basis for the purchase of units are the offering documents of this product (the latest prospectus, the Key Investor Information Document, the latest statement of accounts and - if older than 8 months - the latest half-year review) that can be requested free of charge from LOYS AG, Barckhausstr. 10, 60325 Frankfurt am Main, from HAUCK & AUFHÄUSER INVESTMENT GESELLSCHAFT S.A., R.C.S.LUXEMBURG NR.
