The subject matter of this document is the KEY INVESTOR INFORMATION relating to this fund. The document does not constitute promotional material. This information is prescribed by law so that you can be aware of the nature of this fund and the risks involved in investing in it. We advise you to read this document to enable you to make an informed investment decision.

LOYS Sicav – LOYS Global P ISIN: LU0107944042

Sub-fund of **LOYS Sicav**
Management company: LOYS Investment S.A.

Objectives and investment policy

- The objective of the sub-fund is to achieve constant growth.
- To this end, the sub-fund invests in shares at a rate of at least 60%. Moreover, annuities of all types, certificates that contain shares as their underlying asset and that are officially listed or traded on stock exchanges or other regulated markets that are recognised and open to the public and that operate regularly – “regulated markets” – and convertible bonds and option bonds can be acquired for the sub-fund. Investments in bonds with a rating worse than B- (S&P / Fitch) or B3 (Moody's) are not permissible. If several ratings are available for one bond, the worst rating is used as a basis. An acquisition of asset-backed securities or CoCo bonds as structured products is not permitted (this prohibition explicitly does not include warrants, convertible bonds and option bonds or certificates; they are therefore permitted as acquirable assets for the company). Units in investment funds are not acquired for the sub-fund. The sub-fund is thus eligible as a target fund. Depending on the situation on the financial markets, the sub-fund may also, in the short term, hold up to 100% of its cash and cash equivalents or invest in similar assets. No securities from the sub-fund assets are loaned for the sub-fund.
- The individual securities are selected by the fund management. The fund may use derivative transactions to reduce possible loss or to achieve higher value growth.
- The income may be paid out to you.
- You may fundamentally demand the redemption of your units from the management company on any trading day.
- We may, however, suspend the redemption if exceptional circumstances arise that make a suspension appear necessary in the interest of the investors.
- The fees for the acquisition and sale of securities are borne by the fund. They are incurred in addition to the percentage rates listed under Costs and they may reduce the returns generated by the fund.

Risk and income profile

The following risks do not affect the rating directly, but may however be of importance to the fund:

- This fund, LOYS Sicav – LOYS Global, is rated as category 5 as its unit price fluctuates greatly and it therefore presents elevated risks of loss and opportunities for profit.
- The fund's rating may change in future and cannot be guaranteed.
- Even a fund that has been rated as category 1 does not constitute a fully risk-free investment.
- A detailed account of the risks is given in the “General risk information” section of the sales prospectus.
- Operational risks and custody risks: The fund may become a victim of fraud or other criminal activities. It may also experience losses resulting from misunderstandings or errors on the part of the investment company staff, a depositary bank or an external third party. Lastly, its management or the custody of its assets may be negatively affected by external events such as fires and natural disasters.
- Risks arising from the use of derivatives: The fund may use derivative transactions to speculate on rising or falling prices with the aim of generating possible additional income. The increased opportunities are accompanied by increased risks of loss.

Costs

The ongoing management and custody of the fund's assets and the marketing of fund units are financed through fees and other costs. Costs incurred reduce the investor's opportunities to obtain income.
