

KEY INVESTOR INFORMATION

The subject matter of this document is the KEY INVESTOR INFORMATION relating to this fund. The document does not constitute promotional material. This information is prescribed by law so that you can be aware of the nature of this fund and the risks involved in investing in it. We advise you to read this document to enable you to make an informed investment decision.

LOYS Aktien Europa P ISIN: LU1129454747

Sub-fund of LOYS EUROPA
Management company: LOYS Investment S.A.

Objectives and investment policy

- The objective of the fund is to achieve constant growth.
- To this end, the fund invests exclusively in securities issued by issuers domiciled in Europe. The sub-fund invests at least 60% of its net sub-fund assets in shares that are listed on stock exchanges or traded on other regulated markets, which qualify as equity participations. Investments in bonds with a rating worse than B- (S&P / Fitch) or B3 (Moody's) are not permissible. If several ratings are available for one bond, the worst rating is used as a basis. An acquisition of asset-backed securities or CoCo bonds as structured products is not permitted (this prohibition explicitly does not include warrants, convertible bonds and option bonds or certificates; they are therefore permitted as acquirable assets for the sub-fund). Units in investment funds are not acquired for the sub-fund. The sub-fund is thus eligible as a target fund. No securities from the sub-fund assets are loaned for the sub-fund.
- The fund is not focused on any specific geographical area, industry or sector.
- The individual securities are selected by the fund management. The fund may use derivative transactions to reduce possible loss or to achieve higher value growth.
- The income may be paid out to you.
- You may fundamentally demand the redemption of your units from the management company on any trading day.
- We may, however, suspend the redemption if exceptional circumstances arise that make a suspension appear necessary in the interest of the investors.
- The fees for the acquisition and sale of securities are borne by the fund. They are incurred in addition to the percentage rates listed under Costs and they may reduce the returns generated by the fund.
- This fund is an actively managed fund, which is not benchmarked.

Risk and income profile

The following risks do not affect the rating directly, but may however be of importance for the fund:

- This fund, LOYS Aktien Europa, falls into category 6 because its share price is subject to noticeable fluctuation and therefore both the risk of loss and opportunity for profit are not insignificant.
- The fund's rating may change in future and cannot be guaranteed.
- Even a fund that has been rated as category 1 does not constitute a fully risk-free investment.
- A detailed account of the risks is given in the "General risk information" section of the sales prospectus.
- Operational risks and custody risks: The fund may become a victim of fraud or other criminal activities. It may also experience losses resulting from misunderstandings or errors on the part of the investment company staff, a depositary bank or an external third party. Lastly, its management or the custody of its assets may be negatively affected by external events such as fires and natural disasters.
- Risks arising from the use of derivatives: To implement its strategy, the fund uses derivative transactions to speculate on rising or falling prices with the aim of generating possible additional income. The increased opportunities are accompanied by increased risks of loss.
- Liquidity risks: The fund may invest part of its assets in securities, which are traded on a stock exchange or similar market. Due to the size of the companies or due to the low trading volumes, it cannot be guaranteed in all cases that a buyer for these papers can be found at short notice. Thereby the risk of suspension of unit redemption increases.
- Counterparty risks: The fund may carry out a significant number of derivative transactions with various contractual partners. If a contractual partner becomes insolvent, they may no longer or only partially settle outstanding claims of the fund.

Costs

The ongoing management and custody of the fund's assets and the marketing of fund units are financed through fees and other costs. Costs incurred reduce the investor's opportunities to obtain income.

One-off costs incurred before and after investment:		The one-off costs constitute a maximum sum that can be deducted from your investment before you invest / before your returns are paid out.
Sales commission	5%	
Redemption commission	None	
Exchange commission	None	The sales commission / redemption commission given here is a maximum amount. It may be lower in individual cases. To find out what sum applies to you, ask the marketer of the fund's units.
Costs that are deducted from the fund in the course of the year:		
Ongoing costs	1,82%	
Costs that are borne by the fund under particular circumstances:		The ongoing costs specified here were incurred in the fund's last financial year, which ended in December. They can fluctuate from one year to the next.
Fees connected with the performance of the fund (performance fee)	In the fund's last financial year, this was 0% of the fund (performance fee)	
The performance fee is 10% of the absolute increase in net asset value per unit, per payment period – on a yearly basis.		These costs do not include fees for the acquisition / sale of securities (portfolio transaction costs) or costs for fees connected with the fund's performance.

More detailed information on the costs can be found in the "Costs" section of the sales prospectus. The ongoing costs do not include the performance-based remuneration or the transaction costs.

Previous performance

Past performance is not a guarantee for future performance. In the calculation, all costs and fees were deducted with the exception of the sales charge / redemption surcharge.

The unit class shown has been active since 01/12/2014.

The previous performance was calculated in EUR.

Practical information
