LOYS FCP - LOYS Global L/S IAN ISIN: LU1487931740

Sub-fund of LOYS FCP

Management company: LOYS Investment S.A.

Objectives and investment policy

- The objective of the sub-fund is to increase the value of the investment funds placed by the unit-holders.
- This Sub-Fund is a financial product promoting, inter alia, environmental or social features and qualifies under Article 8(1) of Regulation (EU) 2019/2088 on sustainability-related disclosure requirements in the financial services sector. However, the Sub-Fund does not seek sustainable investments within the meaning of the EU Taxonomy Regulation. For more information, please refer to the current prospectus of the Fund.
- To this end, the sub-fund invests globally in shares, annuities and participation certificates without limitation. The sub-fund invests at least 60% of its net subfund assets in shares, which qualify as equity participations. Unsecured share exposure is 60% of the sub-fund assets at most. Investments in bonds with a rating worse than B- (S&P / Fitch) or B3 (Moody's) are not permissible. If several ratings are available for one bond, the worst rating is used as a basis. An acquisition of asset-backed securities or CoCo bonds as structured products is not permitted (this prohibition explicitly does not include warrants, convertible bonds and option bonds or certificates; they are therefore permitted as acquirable assets for the sub-fund). Units in investment funds are not acquired for the sub-fund. The sub-fund is thus eligible as a target fund. No securities from the sub-fund assets are loaned for the sub-fund. Units in investment funds are not acquired for the net sub-fund assets. The subfund is thus eligible as a target fund. Depending on the situation on the financial markets, the sub-fund may also, in the short term, hold up to 40% of its cash and cash equivalents or invest in similar assets.
- The fund has no geographic, industry or sector focus.
- The selection of individual securities is made by the fund management. The fund may use derivative transactions to reduce potential losses or to achieve higher capital gains.
- The earnings can be paid out to you.
- In principle, you may request the management company to redeem the units on each valuation day.
- The Management Company may, however, suspend redemption if exceptional circumstances make this appear necessary, taking into account the interests of the investors.
- The fees for the acquisition and sale of securities are borne by the fund. They are incurred in addition to the percentage rates listed under Costs and they may reduce the returns generated by the fund.
- This fund is an actively managed fund that does not follow a benchmark.

Risk and income profile

The following risks do not affect the rating directly, but may however be of importance to the fund:

- The Fund LOYS FCP – LOYS LOYS Global L/S has been categorized 4, because its net asset value shows its share price fluctuates strongly and therefore both risks of loss and opportunities for gain are clearly pronounced.
- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may shift over time.
- Even a fund classified in category 1 is not a completely risk-free investment.
- A detailed description of the risks can be found in the section „GENERAL RISK INFORMATION“ of the sales prospectus.
- Operational Risk: The Fund may be exposed to significant operational risks, such as processing errors, misconduct, communications failures or misunderstanding on the part of those involved in fund management and administration.
- Derivate Risk: Derivatives, especially when used to seek higher gains or to speculate on price movements, can expose the Fund to additional risk of loss.
- Liquidity risks: The fund can invest part of its assets in papers for which no buyer can be found in the short term due to the size of the company or the low trading volumes. This can increase the risk that the Fund may have to suspend the redemption of its shares.
- Counterparty Risk: The Fund's transactions with counterparties may be significant, increasing its exposure to losses if a counterparty becomes unable to meet its obligations to the Fund.
